

Ames Construction

NOW HIRING

Ames Construction (Ames) is now hiring for various positions at the K+S Legacy Mine Site near Bethune, Saskatchewan. K+S Potash Canada GP (K+S) is developing a new potash solution mining facility comprising a number of projects. Ames has been selected as the prime contractor for the Civil Earthworks Tailings Management Area project comprising the construction of a surface water diversion channel, a salt storage area, a reclaim brine pond, topsoil management areas and access roadways. Ames has partnered with the Muscowpetung Saulteaux First Nation in this venture and looks to our partners at Muscowpetung to help us build this project from start to finish.

Operators – Heavy Equipment

Heavy equipment operators with experience required on the following machinery:

- Rock Trucks (CAT 740 Articulated Trucks or equivalent)
- Scrapers (CAT 627 and CAT 631)
- Dozers (CAT D6)
- Excavators (CAT 330 and CAT 345)
- Motor Graders (CAT 14H)

Experience can vary from zero to multiple years. Ideally operators will have experience in mass earthworks projects either in industrial settings or in highway construction. Select candidates with limited experience will be trained on site.

Base Wage \$38.39/hr + Benefits = \$46.58/hr

Project details

- Start date: July 22, 2014
- End Date: July 15, 2015
- The project is camp based. All craft workers will be housed in the K+S Legacy Mine Site Camp facility. Camp includes room and board.
- Work schedule is 2-weeks on / 1-week off, 10 hours per day.
- All project personnel are subject to pre-access drug and alcohol testing.
- All project personnel will be required to join Construction Workers Union (CLAC) Local 151.
- If interested apply to the following:
 - CanadaJobs@amesco.com
 - Mr. Dan Pelletier dpelletier838@gmail.com or contact Mr. Pelletier at 587-432-0191
